VBH Provides An Update To Its Stakeholders

VB Holdings Ltd celebrated 10 years of being successfully listed on the South Pacific Stock Exchange, as a publically listed company. As a pioneer asset management listed company, with its core business of Fleet and Property management, it provided a Brokers briefing presentation to its stakeholders at the Reserve Bank of Fiji conference room, highlighting the business activities of the company.

The company says although it's a small boutique company, the growth over the last 10 years has been consistent and the profit for the company has been improving each year, due to improvements in its cost reduction program and improvements in market conditions. The shareholders also have been given consistent returns each year, in the form of dividends and bonus shares and the company intends to keep this trend in the years ahead.

VB Holdings Limited remains optimistic that revenue opportunities will increase in the next few years, as they anticipate more activities this year as tourism and capital development are expected to strengthen.
